

KEY LARGO

December 8-9, 2018

Price: \$160 (air tanks included)

Join us for 2 days of incredible diving!

Key Largo offers dives to beautiful reefs and incredible wrecks. Rainbow Reef will take our shallow boat dives to beautiful sites like Molasses Reef, Pickles Reef, Conch Reef System, and many more. These reef systems are on the southern tip of Pennekamp Park, so you know they are teeming with life! It is on these reefs that we have the chance to see turtles, schools of Grunts and Snapper, Spadefish, and many varieties of Parrotfish.

The wreck boat (must have Deep Diving certification) will be taking divers to the Spiegel Grove and "Captain's Choice" on Saturday, USCGC Duane and Molasses Reef on Sunday. The **Spiegel Grove** is a 510' amphibious troop transport ship and was intentionally sunk May 12, 2002 six miles off Key Largo to form the backbone of a coral-reef ecosystem. Life around the reef ranges from sponges, coral and legions of tiny tropical fish to large barracuda and jacks. Needless to say it's a dive worth taking. The **Duane** sits upright in about 120' of water. It is an advanced dive and is often visited by strong currents. It is also often blessed with excellent visibility of over 100'.

We will meet Saturday afternoon at 1:00pm and return by 5:30pm. Sunday morning we will meet at 8:00am and return by 12:30pm.

Trip price does not include lodging, transportation, boat crew gratuities or any diving equipment (except for 4 air tanks). Non-refundable unless cancelled by dive center. Call Gulfport Dive Center to pay and reserve your spot. 727-498-8702
